Miss Braden has a wonderful growth of hair, reaching to the floor when she is standing. It is of worderful fine, silken quality and has been greatly admired for years by her friends,

A few years ago, much to her sorrow, she began to notice the first gray hair appearing, then they came faster and almost before she realized it she discovered that her wonderful hair had become streaked with gray.

A short time ago she began to use SCOTCH-TONE HAIR RE-STORER on one side of her hair as an experiment and she was so pleased with the result that she agreed to allow one side to be treated and leave the other side as it was to show other ladies the wonderful effect of SCOTCH-TONE HAIR RESTORER. On account of the length and weight of her hair it takes much longer to restore the color to her hair than it does ordinary hair. It usually takes a week or ten days to restore the hair to its natural color, but she has been using it over two weeks and it will take at least a week longer to get her hair to its original natural shade. We hope every lady in Tulsa will see Miss Braden's hair some time this week and let her tell you what WONDERFUL RESULTS may be obtained with Scotch-Tone Hair Restorer.

I can well congratulate The World management for its enterprise in issuing The Monday World. In my day I have witnessed the starting and issuing of every daily newspaper in the west; at Kansas City. Topeka, Fort Scott, Atchison, omala, Wichita, Hutchison, Abedine, Parsons, Baxter Springs, Galena, Coffeyville, Denver, Puchlo, Ciklahoma City, Tulsa and Muskogee, I have "held cases" on most of the older publications and have started three dailies myself and have seen every state become a commonwealth west of Iowa and Missouri, and in none of these western states has any management given the public a sevenday paper within a period of ten years or less, as has the management of The World, and as a pioneer printer I am not presuming too much to congratulate yeu and Mr. Dent. Yours truly, Bill Higgins.
